1133 E. Stanley Blvd. #103, Livermore, CA 94550 5575 W. Las Positas Blvd. #340, Pleasanton, CA 94588 11030 Bollinger Canyon Rd. #220 A&B, San Ramon, CA 94582

# Livermore Pleasanton San Ramon Pediatrics

Dear Parent,

The attached information marks the beginning of a possible ADHD diagnosis for your child. This diagnosis will require a team effort from both your family and this office to be successful in managing your child's success. Gathering the information requested from all parties will help facilitate a more thorough investigation into your child's diagnosis.

When the packet is completed please return it to the closest LPSR location. The appointment for the consultation with your child's provider will not be made until the packet has been completed and returned to the office. Please pay close attention to the required information.

If your child is a NEW patient to this office, we ask that you please request all previous records. Please follow-up to make sure we have received the records. You will also be required to complete the attached information before a consultation will be made.

The ADHD packet includes the following pieces of information:

- 1. ADHD Questionnaire Please make sure to write/collect as much information as possible. Make sure that both parents, caregivers; i.e., grandparents, nanny, etc., write separate notes to the Doctor answering the questions in detail from the questionnaire.
- 2. NICHQ Vanderbilt Assessment scale Parent Informant (2 copies)
- 3. NICHQ Vanderbilt Assessment scale Teacher Informant
- 4. Records release form please use this form to request reports or records from previous providers or psychologists, therapists, etc., if the information they contain are pertinent to the consultation visit.
- 5. Appointment and Prescription instructions This form advises you on the different types of appointments to schedule and how to request refills of controlled medications.

If you have any questions please call the office.

Thank you!

LPSR Pediatrics - Stanford Children's Health

9/2015

## Livermore Pleasanton San Ramon Pediatrics

# **ADHD Questionnaire**

IMPORTANT: The following information must be delivered to the office no later than one (1) week (5 business days) before the scheduled consultation for review by the Provider of Care. If the information is not received in the requested time the appointment will be rescheduled for a future date.

Please include the following information with the attached assessments from both parents and/or caregiver and the attached assessments from the child's teacher(s).

- Notes from the <u>mother and father or any other caregiver</u> (information should be separate. Notes should not be compared and observations changed) concerning the basic problem including:
  - a. List the child's strong points.
  - b. List the child's problem points.
  - c. Who feels the child has a problem?
  - d. What has been tried to help the problem up to now?
  - e. What precipitated the call?
- 2. Notes from the father or any other caregiver answering all the above (should be filled out separately so notes can be compared and observations changed.)
- 3. Notes from *present* teacher concerning child's behavior and learning ability.
- 4. Notes from <u>previous</u> teachers concerning child's behavior and learning ability.
- 5. Any end of the year notes on report cards you have available for as many years as possible.
- 6. Any and all (old and new) evaluations:
  - a. SSTs (student study team.)
  - b. IEPs (individual education plan)
- 7. Psychological evaluations either from the school or from outside sources, if available.
- 8. Any evaluations from specialists.
- 9. Any test results, if available:
  - a. EEG
  - b. CAT scan
  - c. MRI
- 10. Please list separately any medications used both previously and presently used and how each one worked.
- 11. Other Physician's notes or transfer of records. (Fill out and send record transfer request to previous physician(s) see attached form.
- 12. Completed **NICHQ Vanderbilt Assessment Scale** <u>PARENT</u> Informant <u>each</u> <u>parent/caregiver</u> to fill out separate assessment)
- 13. Completed NICHQ Vanderbilt Assessment Scale TEACHER Informant

9/2015

If your insurance does not cover consultations of this type, you will be responsible for all charges.

# **Appointment and Prescription instructions**

Below is a list of the appointment types that you will need to schedule for ADHD diagnosis and maintenance.

Annual physicals: required every 12 months

**ADHD Monitoring:** At this appointment we will check your child's height, weight, blood pressure and confirm that the dosage is appropriate and effective. This appointment is required **6 months after the annual exam** even if things are going smoothly.

**ADHD Consult:** These are scheduled for the initial diagnosis **and/or** if the type of medication or dosage is not effective and you would like to discuss other options with the doctor. For example, if your child is still experiencing issues at home or school they may need an ADHD consult. These appointments do require more time so please be clear when scheduling that you need a "consult" appointment. This can be scheduled in lieu of the ADHD monitoring appointment at 6 months if your child is experiencing medication related issues.

### Requesting medication refills:

When calling the office for a medication refill we have a dedicated voice mail on the main line that is checked several times a day to process these refills. The extension for this line is six (6). Please note that the office needs 72 hours three (3) business days to process your request. Prescription requests are not completed during the weekend. You should always call the office to make sure the prescription is available for pick-up.

When you call to leave a message please make sure to include the following information:

- 1. Your name
- 2. Your child's name
- 3. Your child's birthdate
- 4. The medication including whether it is extended release or short acting (XR, ER, CD, LA, SR)
- 5. The milligram dosage and the frequency how many times a day it's taken
- 6. Whether the medication is generic or brand name only.
- 7. Phone number the doctor can reach you if there are questions

Here is an example of a phone message:

My name is Jane Doe, my son John Doe birthday 5/1/1906, needs a refill of Adderall XR, 30 milligrams, which he takes only in the morning. The generic medication is fine. I'd like to pick up the prescription in the Livermore office. I can be reached with questions at 925-555-555. Thank you.
